# TUFF-ROD™ FISHING POLE KITS

The Tuff-Rod™ Fishing Poles were designed with your needs in mind. They feature a crimped edge, gel coat and reinforced composite pultrusion fiberglass. These features provide you with a high quality fish pole that is strong and long-lasting.

Tuff-Rod™ Fishing Pole Kits provide a wide range of electrical and data line installation flexibility and performance. Select the 'Flex' that best suits your application; whether you are running wire in and around studs, or pulling over long distances in a drop-ceiling environment, Tuff-Rod™ is the perfect choice. For low-light situations, choose Tuff-Rod™ with Glow, a pale green, luminescent fiberglass.

Accessory heads come in three varieties to add even more functionality to the kits. IDEAL also offers repair kits that allow electricians to make quick and easy repairs of the Tuff-Rod™ in the field.

## FEATURES

- Tuff-Rod™ features non-conductive fiberglass in two diameters (1/4" and 3/16") in white and Glow.
- Three available ends provide maximum flexibility in application environment and materials used.
- Threaded extension rods and attachments ensure a consistent and durable performance.
- Repair kit allows for in the field, five minute repairs and component replacement.

Two diameters to choose from (1/4" and 3/16") in white and glow non-conductive fiberglass

Bullet nose attachment

Whisk attachment

J-Hook attachment

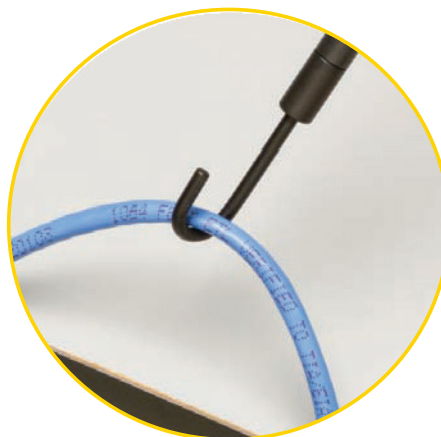

The J-hook aids in re-positioning wires and re-directing pulls

Crimped edge provides exceptional "pull-off" strength for a durable long-lasting fish pole

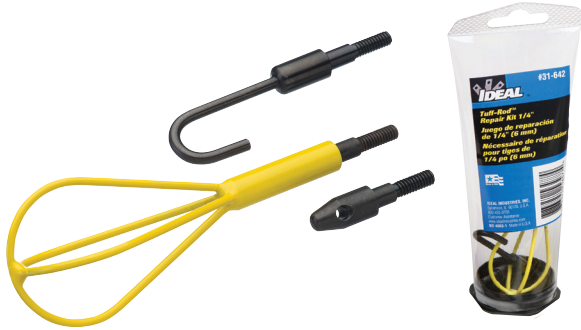

Fiber reinforced composite pultrusion for consistent high quality

Ultra smooth gel coat helps protect hands from fiberglass
