

## Warranty Policy

We stand behind the quality of our products and warrant them to the original purchaser for the duration of their useful life against defects in material and workmanship. In the unlikely event a product fails, warranty will be granted quickly and unconditionally, providing the products were used for the application intended. Products used inappropriately, abused, neglected, not maintained properly, altered, or worn through normal use will not be considered.

No warranty consideration can be made if the initial inspection shows that the product has been:

- Used with any device to create additional leverage.
- Machined or modified in any way.
- Overstressed or over torqued.

Products such as ratchets, flex handles, pullers, universal joints, and adjustable wrenches require periodic maintenance and repair. When a product needs repair due to normal wear and tear, the repair will be at the customer's expense.
