## Minimal Clearance to Combustibles

Measurements are taken from the top of the front glass			
Bottom	0	Top	at least 6" to ceiling or crown moulding
Sides	0	Top	at least 6" to mantel or TV
Back	0		

**Framing**

Model Number	A	B	C
<b>EF-HP50</b>	48 7/8" (1241mm)	16 1/4" (413mm)	6" (153mm)
<b>EF-HP65</b>	63 7/8" (1622mm)	16 1/4" (413mm)	6" (153mm)

**Installation Method Overview**

**1. Wall Mount Installation.** Appliance is mounted on the wall just like a flat screen TV or an art painting. Hardware and brackets required are included and is inside the packaging. Please refer to the hardware list to find these parts.

**2. Built in Installation.** Appliance is built inside the wall or cabinet. It is great for remodeling project and new construction site as it requires certain amount of wall modification, framing and reframing work such as cutting an opening in a wall, building and framing a stud wall out, and electrical wiring.
