

3.78 litre or 11.35 litre

TERRAZZO

DECORATIVE GRANITE RESURFACER

PROJECT BUYING GUIDE

Terrazzo is a simple **ROLL-ON** system with these **specific products and quantities** for desired results...

If surface is very smooth, first prime with...

OR

These will stop the Terrazzo coating from sliding on the floor during installation – and help ensure a uniform look and correct coverage. It also hides underlying patchiness and discoloration.

Coverage: 160 - 200 sq.ft. per 3.78l, depending on smoothness of surface and application thickness.

Otherwise, proceed directly to Terrazzo! >>

1) TERRAZZO

Terrazzo® Granite Coating

Coverage: 40 - 60 sq.ft. per 3.78l, per coat depending on smoothness of surface and application thickness. Apply two thin coats 24 hours apart.

2) SEALER

OR

Choose this for slip-resistance on wet interior/exterior walking surfaces.

Coverage: 400 sq.ft. per 3.78l, per coat depending on smoothness of surface and application thickness.

Choose this to protect Terrazzo on garage and heavier duty surfaces.

Coverage: 400 sq.ft. per 3.78l, per coat depending on smoothness of surface and application thickness.

TERRAZZO® PURCHASE GUIDE FOR COMMON PROJECT SIZES

Project Size	Primer (x 3.78l)	TERRAZZO (x 3.78l)	SEALER (x 3.78l)
150 Sq.Ft.	1	8	1
200 sq.ft.	2	10	1
250 sq.ft.	2	12	2
300 sq.ft.	2	15	2
350 sq.ft.	3	18	2
400 sq.ft.	3	20	2

Surface roughness/texture and application thickness can impact Terrazzo coverage. Apply Terrazzo in two very thin coats, pressing firmly with the roller as detailed in the video.

Purchase quantity recommendations calculated using conservative coverage rates to help ensure adequate supply...
