SAFETY STATEMENTS & MAINTENANCE

- This is not a freestanding umbrella base; the base must be used under a table designed to support an umbrella pole.
- Check for and empty standing water from the base.
- Do not stand on the base – it is only meant to support the weight of an umbrella.
- Store in a dry location when not in use – do not leave exposed to inclement weather.
- Clean with mild soap and water – use of harsh chemicals may damage the product and will invalidate the product warranty.
- Do not over-tighten the adjustable handle as it may damage your umbrella pole.
- Close patio umbrellas when not in use and remove umbrellas during high-wind conditions; the base is designed only to support an umbrella and will not protect your umbrella from wind damage.

Any modification or failure to follow the recommended care will void the product warranty.
